

Peter Pan Playgroup

Social Networking, Mobile Phone, Smart Watches and Camera Usage (Including Video Recordings) Policy

Peter Pan Playgroup recognises that the use of modern-day technology plays an important part in the daily work we all do with children and realises the significance of the use of cameras and computers in supporting children's learning and development. Whilst there is an absolute need to ensure the safety and well being of all children in our setting, a sense of proportion and common sense is needed in making decisions around the use of technology.

This Policy is applicable to all Peter Pan Playgroup's staff, committee members and parents/students who volunteer within the setting.

Social Networking

We realise the usefulness of social networking media and Peter Pan Playgroup does not wish to discourage staff, committee members or parents/students who volunteer within the setting from having an online presence and everyone needs to use their good judgement on what material makes its way online.

Mobile Phones

- At the beginning of each session, all staff members' mobile phones are stored in a lockable container and stored in a safe place out of reach of children. All staff should be aware of the telephone number for the setting and this should be used as an emergency contact number for staff members' families, children's schools and friends during session times. In an absolute emergency, mobile phones may be used off premises.
- All parents and visitors will be advised of this policy when they arrive at the setting and will be requested not to use their mobile phone whilst inside the setting (including the outside play area). If this is absolutely necessary, they should be requested to leave the premises in order to do so.
- Where it is necessary for staff to take their own mobile phones on outings with the children (in case of emergency), they will be stored in the outings bag and must not be used to make or receive social calls or to take photographs of the children. They must not allow anyone else to use personal mobile phones to take photographs.

Smart Watches

- Smart watches may be worn by staff and visitors however if smart watches have the capability of taking photos or recordings, then these kinds of devices will be banned or asked to be removed and will be placed in a cupboard away from children for the duration of work/visit time.

Cameras

- Photographs should only be taken of children attending the setting for whom permission has been given by signed consent from parent/guardian for the purposes of documenting children's learning and development or promoting Playgroup's activities. (Staff should be aware of which children cannot be photographed.) Staff should not bring their own cameras into the setting.
- Photographs should only be taken on a designated camera(s), Playgroup's iPad, or Kindle tablet for the sole use of the setting and usage will be monitored by the Manager. Once the images have been used for their appropriate use, they should be deleted from the camera(s), iPad or Kindle tablet. All staff are made aware of this procedure.
- Children may on occasion be given the opportunity to photograph each other and their surroundings using only the setting's cameras within the setting's safe environment to support their learning and development needs.

Video Recordings

Guidance as previously (for camera usage) applies to use of video recording devices. All recordings should be for a valid purpose and should be stored safely. If parents wish to video a special event, permission must have been given by all parents for their child to be included in any recordings being taken by other parents or other relevant people.
